

Neocate Advance

Neocate Advance

A palatable and nutritionally complete hypoallergenic elemental formula for the dietary management of children over 1 year of age with cow's milk protein allergy and multiple food protein allergy. Also suitable for other indications requiring an elemental diet.

NRV Volumes:

- 1 – 3 year old = 1050ml (except Potassium)
- 4 – 8 year old = 1450ml* (except Potassium)
- *1600ml for Tropical flavour

PRESENTATION

400g can

FEATURES

- 100% non allergenic synthetic free amino acid based formula for children over 1 year of age
- Milk protein free and no peptide residues for those children who demonstrate hypersensitivity to extensively hydrolysed formula (eHF)
- Clinically validated in severe allergy to cow, soy and eHF
- High biological amino acid profile
- 35% MCT and 65% LCT to provide optimal mix of essential fatty acids
- Carbohydrate 100% maltodextrin for easy digestion and low osmolar load
- Lactose free, sucrose free, fructose free and gluten free for improved tolerance
- Minimal bowel residue
- Contains trace elements selenium, chromium and molybdenum
- Contains essential fatty acids
- Superior taste to improve compliance
- Convenient and simple to use, new emulsification techniques have produced a smoother, easier mixing formula
- To provide choice Neocate Advance is available in both Unflavoured and Tropical flavour

NUTRIENT SOURCE

Protein: free amino acids

Fat: fractionated coconut oil, canola oil, high oleic safflower oil

Carbohydrate: maltodextrin (dried glucose syrup)

INDICATIONS

For use in children over one year as a sole source of nutrition or as a supplementary feed where a elemental diet is required in conditions such as:

- Cow's milk protein allergy
- Soy protein allergy
- Short bowel syndrome
- Transitional feeding from parenteral to enteral
- Multiple food protein allergy (MFPA)
- Intractable malabsorption
- Bowel fistulae
- Allergy to extensively hydrolysed formulas (eHF)

CONTRAINDICATIONS

Use under medical supervision.

Not for parenteral use.

Not suitable for use in children less than one year of age.

INGREDIENTS

Dried Glucose Syrup, Fractionated Coconut Oil, Canola Oil, High Oleic Safflower Oil, (Flavourings, Citric acid - Tropical Flavour only), (artificial sweetener [Sucralose] - for Tropical Flavour only) Calcium Phosphate Dibasic, L-Arginine, L-Glutamine, L-Lysine-L-Aspartate, Tripotassium Citrate, L-Leucine, L-Phenylalanine, L-Proline, Emulsifier (E472C), L-Valine, L-Isoleucine, Glycine, N-Acetyl-Methionine, L-Threonine, L-Serine, L-Histidine, Magnesium Acetate, Sodium Chloride, L-Alanine, Choline Bitartrate, L-Tryptophan, L-Tyrosine, Dipotassium Hydrogen Phosphate, Inositol, L-Ascorbic Acid, L-Cystine, Ferrous Sulphate, Taurine, Zinc Sulphate, L-Carnitine, DL-Alpha Tocopheryl Acetate, Nicotinamide, Manganese Sulphate, Copper Sulphate, Calcium-D-Pantothenate, Thiamine Hydrochloride, Pyridoxine Hydrochloride, Vitamin A Acetate, Riboflavin, Folic Acid, Chromium Sulphate, Potassium Iodide, Sodium Molybdate, Sodium Hydrogen Selenite, Vitamin K1, D-Biotin, Vitamin D, Cyanocobalamin.

DIRECTIONS FOR USE

- Wash hands and rinse cup and all utensils thoroughly.
- Measure the prescribed amount of water into a container.
- Add the required amount (level scoops) of Neocate Advance.
- Cover and shake until the powder has dissolved. Alternatively use a blender for up to ten seconds.
- Prepared Neocate Advance should be stored in a refrigerator and kept no longer than 24 hours from the time of preparation.
- Shake or stir the product immediately before use. Best served chilled.
Note: If using boiled water, cool before preparing the feed. Do not boil prepared feed.

STORAGE

Store can in a cool dry place. Use by expiry date on can bottom. After opening keep airtight and use contents within four weeks. Packaged in a protective atmosphere.

SHelf LIFE

12 months

PACKAGING

400g can
